OVERVIEW:

- D&M Plastics is a specialist in tight-tolerance precision parts for the medical, automotive and electronics industries
- D&M is a privately held company, located in Burlington, Illinois just outside of Chicago
- D&M was the first U.S. full-service turnkey manufacturer awarded ISO-certification in 1993

- D&M has provided its customers a comprehensive guarantee of quality, delivery, and price since it was founded in 1972
- The D&M manufacturing team stands behind its customer goals and outcomes, and has more than 300 combined years of injection molding experience
- The company's long-standing external defect rate is 17-PPM's – which is 60-times better than the industry average
- D&M has produced and shipped more than 6 billion parts since 2000
- D&M has produced 4.8 billion precision parts for the medical industry since 2000
- D&M has manufactured and shipped 1.4 billion medical devices since 2000
